WHAT YOU CAN EXPECT

At our consultancy, we are passionate about innovation and collaborate with our clients as equal partners to tackle exciting challenges together. You will take on significant responsibilities and work alongside your team to drive our portfolio forward. Together, we drive innovation by opening up new perspectives and creating digital solutions through creativity, methodological expertise and strong teamwork. We are always available as sparring partners to support your development.

WHAT WE OFFER

Get ready for exciting client projects across all industries! As a team, we navigate the current challenges facing our clients in our diverse consulting areas. We encourage you to actively contribute your own ideas and drive innovation both within our company and externally.

Take charge of building and developing your new unit while creating digital consulting and digitization projects. As a Digital Consultant, you'll enjoy a challenging role with the support of a close-knit team that loves to hang out beyond the office.

WHAT WE'RE LOOKING FOR

You want to transform the digital work of tomorrow? Do you enjoy agile projects based on the Microsoft Power Platform? You can structure requirements and implement them into digital solutions?

You have experience in at least one of the modules Power Apps, Power Automate, Power BI? And/or you gained knowledge of configuring SharePoints, working with cloud services, preferably Microsoft Azure, D365/M365/O365?

Then come to Multiversum and become part of our team! As a team player who enjoys designing and developing modern, intelligent and user-centric solutions, you will be an excellent addition to our team.
